6. Updates – Topics for Discussion:
 - a. PayPal online donation – Jim will take the lead in setting this up by the beginning of August 2018.
 - b. Square is set up to take payments. Mr. Dietrich can possible help with embedding the online payment/code onto our website. Square is cheaper and preferred.
 - c. Family Math Night – In the past, it was a PTO/staff joint event. Staff are thinking of doing a Maker Night (STEM components) in substitution on Math Night. They could possibly get 5th graders assist.
 - d. Katie will sit down with Presidents and review all PTO dates. We are hoping to have an event per month so things are evenly spread out.
 - e. McTeacher night is flexible and we can choose a different time/date for the event, possibly earlier in the year in September or October.
 - f. Have we considered offering an after-school program that is a third-party? We are hesitant about it since most of the programs are a for-profit program. What happens if there was an emergency if the instructor is unable to teach? We could make it a PTO club and handle the payment and other logistics. Katie will ask for more details from the superintendent. Possible ideas: chess club, drawing/art enrichment, engineering, cooking, hip hop, Spanish, karate. Another option - Busing kids to the YMCA for programs? Or having YMCA come to school for a program.
